

Rs 30L+ in Verified Donations Through Meta Ads and Funnel Optimization

Client: Helping Hands Foundation | **Industry:** Non-Profit / NGO

Program: Donation Funnel + Meta Ads

Campaign Performance

Rs 30.1L+

Donations Collected

4.5X

Return on Ad Spend

11,246

Captured Payments

The Approach

Donation tracking was rebuilt around Meta Pixel and Conversions API (CAPI) so every rupee of ad spend could be attributed to verified, Razorpay-confirmed donations rather than platform-reported clicks.

Why It Worked

Optimizing the donation page itself alongside the ad campaigns removed friction between click and completed payment, turning cold traffic into a reliably profitable acquisition channel for the foundation.

Strategy: Meta Ads + Website Optimization + Meta Pixel + CAPI + Funnel Optimization
